

Thursday-Friday
Oct. 27-28th
2022

Université Paris Cité
Amphithéâtre Buffon
15, rue Hélène-Brion
Paris 13^e – France

We are pleased to announce confirmed speakers:

Or Gozani, Stanford University, USA - **Clare Davies**, University of Birmingham, UK - **Yang Shi**, Oxford University, UK - **Cheryl Arrowsmith**, University of Toronto, Canada - **Pal Falnes**, Oslo University, Norway - **Muriel Le Romancer**, CRCL Lyon - **Thierry Dubois**, Institut Curie Paris - **Fernando Rodriguez-Lima**, Université Paris Cité - **Slimane Ait-Si-Ali**, Université Paris Cité - **Tiziana Bonaldi**, Milan University, Italy

Scientific symposium

Methylation signaling: Beyond histones and chromatin

This two-day symposium, chaired by **Souhila Medjkane** (Université Paris Cité), **Nicolas Reynoird** (Université de Grenoble) and **Jonathan Weitzman** (Université Paris Cité), aims to bring together and grow the community working in the emerging field of methylation of non-histone proteins. This conference aims to catalyze debate about the role of methylation beyond histones, exploring the methylation landscape in diverse fundamental and applied research fields.

In-person meeting.
Registration is free but compulsory on: methylation2022.sciencesconf.org
